SUBJECT

PLACE

INFO.

ACQUIRED DATE OF

- - 1. Automehanika is a local, rather than a federal, enterprise which manufactures buses and trucks for Dalmatia and Croatia in Split. director is Captain Vinko Guina, the former political commissar. of personnel is Marin Savin, who is also the secretary of the Party cell in the enterprise.
 - 2. The mechanical department, which is located in Firule, is equipped with 12 lathes, 10 drills and two metal saws. This department employs about 120 mechanics and approximately 80 apprentices. The storage area for the factory is also located here.
 - 3. The body department, which is located near the electric station in Manus, is made up of the carpentry shop, the tinsmith shop, the paint shop and the glass shop. About 80 skilled workers and 20 apprentices are employed here
 - $l_{i\circ}$ Pioneer motors, mounted on the chassis, come from the motor industry in Rakovica. Automehanika has only to build the bodies for the buses and beds for the trucks. It is planned to manufacture 20 buses per year. No trucks have been built since 1949.
